PROFESSIONAL SUMMARY

Computer Science Engineering student with foundational knowledge of Java and Python, along with HTML and CSS. Currently undertaking an internship at TAP Academy and eager to strengthen practical skills, learn from real-world projects, and contribute to a collaborative team.

EDUCATION

B.Tech in Computer Science Engineering

Visvesvaraya Technological University (VTU), Belagavi | Expected graduation: 2027

CGPA: 8.4

INTERNSHIP

TAP Academy — Intern (Currently pursuing)

Currently undertaking internship training to build technical knowledge and develop job-ready skills.

TECHNICAL SKILLS

Programming: Java (basic concepts), Python (basic concepts)

Web: HTML, CSS

Core concepts: Data Structures (foundational knowledge)

ACADEMIC PROJECT

Air Quality Monitoring System

- Developed a web-based application to display air quality information in a user-friendly dashboard. Integrated an API to retrieve air quality data for different locations.
- Displayed Air Quality Index (AQI) and pollution levels to help users understand environmental conditions.
- Designed a simple and interactive interface using HTML, CSS, and Python Flask.
- Implemented location-based search to help users check air quality information for different places.

ACHIEVEMENTS & ACTIVITIES

Participated in hackathons and technical competitions, strengthening problem-solving, teamwork, and communication skills.
